

Avery Dennison®

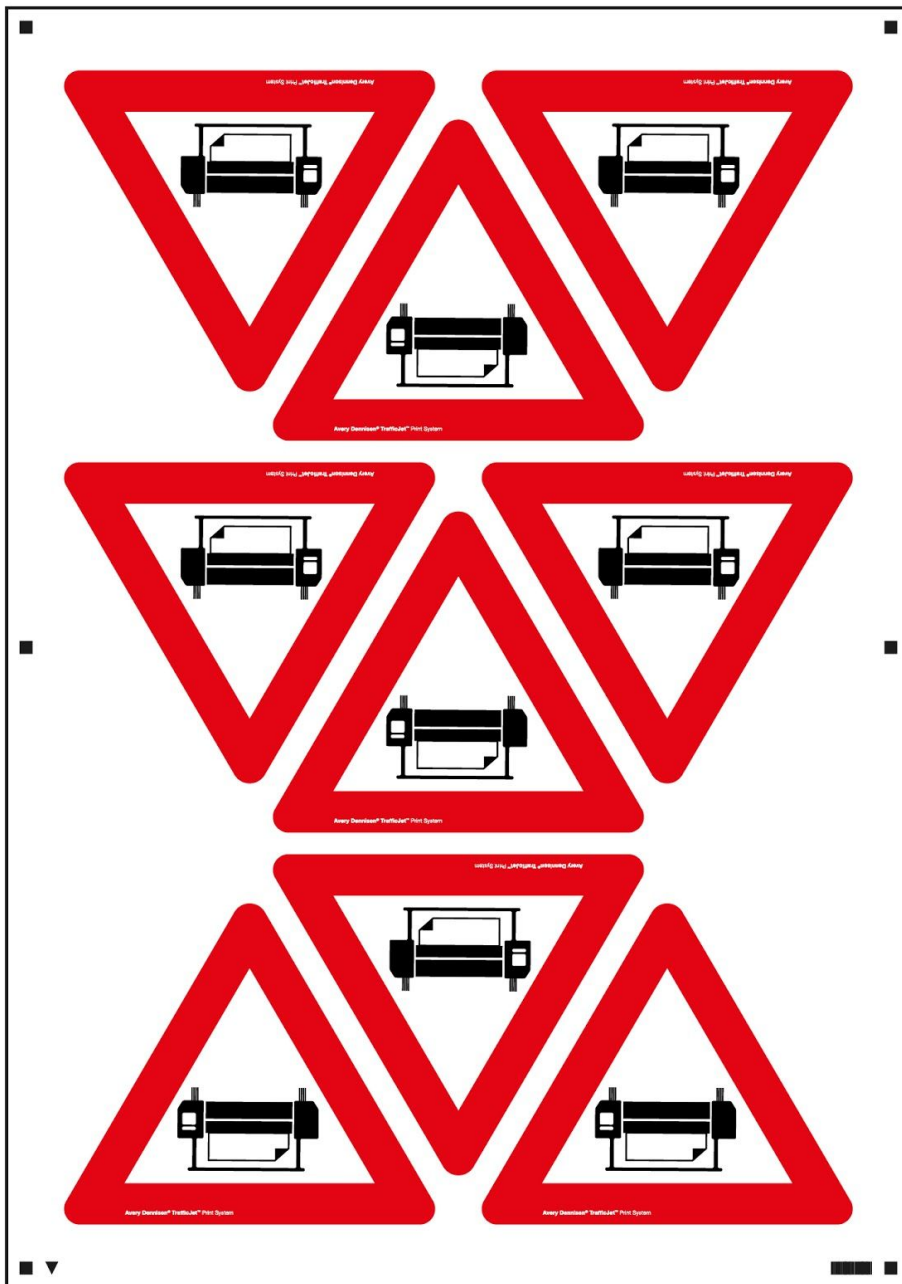

TrafficJet™ Creating Artwork for Unsupported Cutting and Routing Devices

Instructional Bulletin : # 9.12
Revision : # 02
Last Updated : June 2018

Create Layers and Artwork

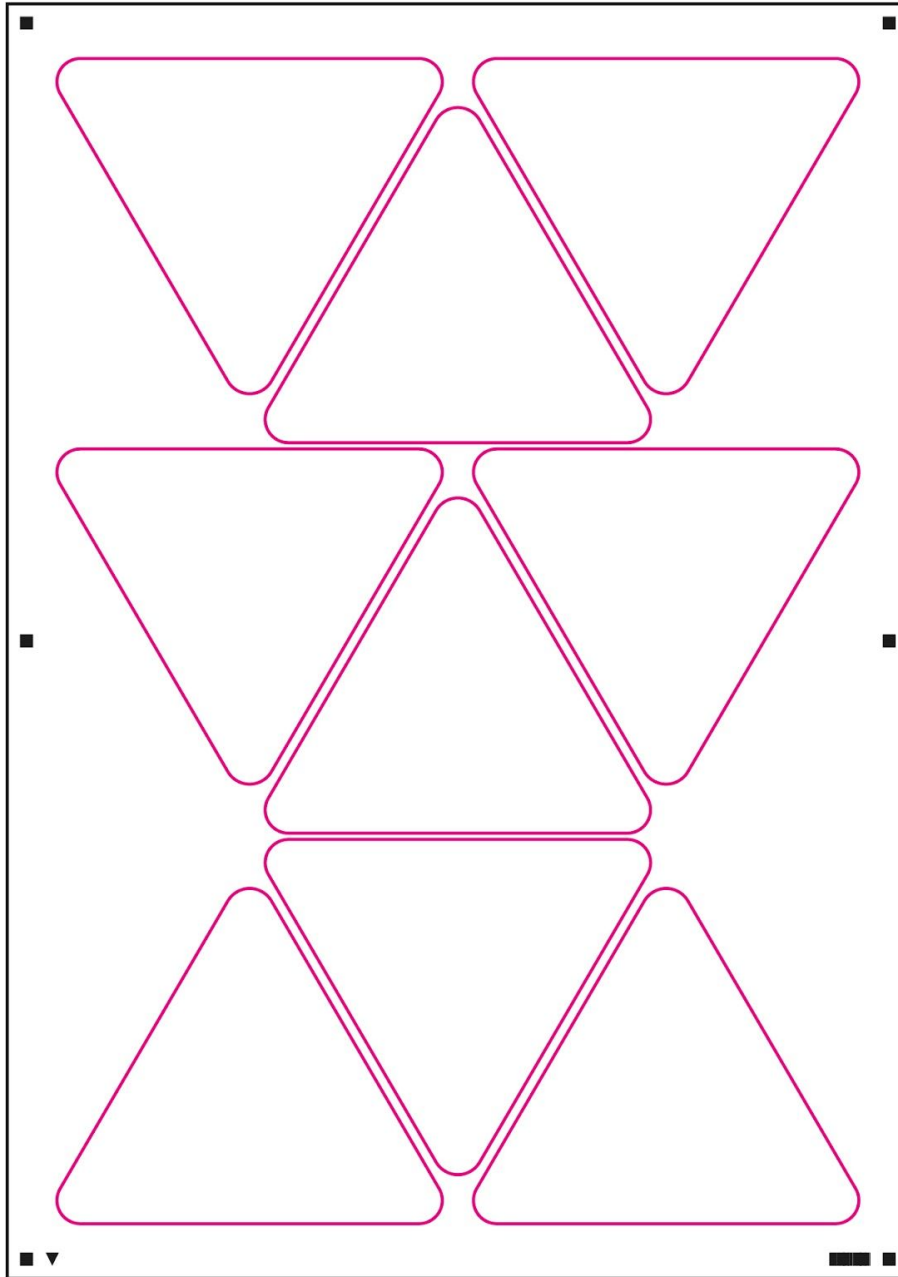

Select Layers 1 and 2 and Save

Select Layer 1 & 2 and save as EPS or PDF for Flexi

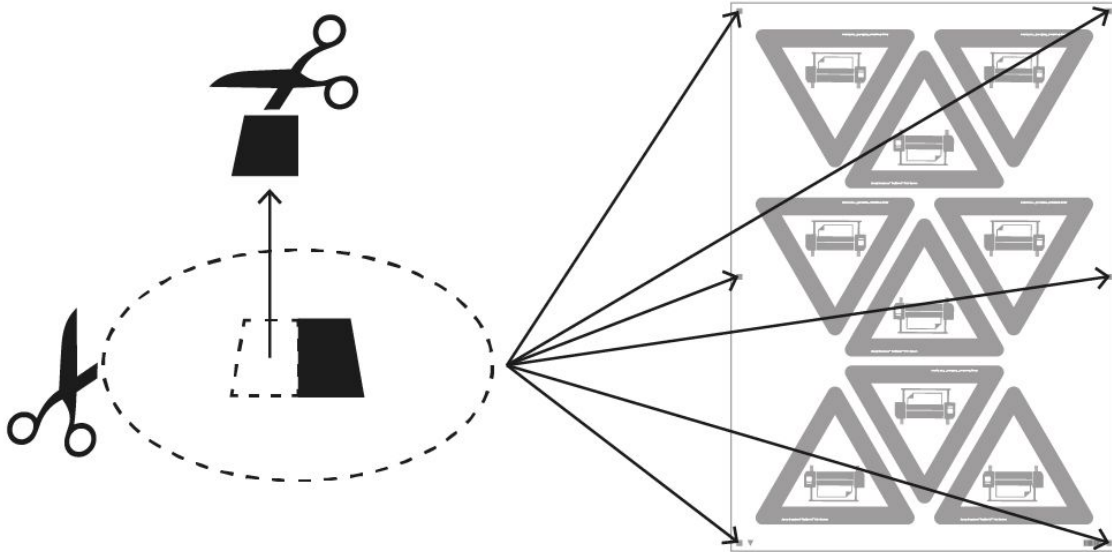

Select Layers 1 and 3 and Export

Select Layer 1 & 3 and export as EPS, DWG or DXF for your specific Cutting or Routing device

Tips and Tricks

1. Use TrafficJet™ Spot Black to print the Cutting or Routing marks for better detection
2. If your Cutting or Routing device is not able to optically detect the marks on the reflective sheeting, first print small squares or circles with a cutting mark on white self adhesive vinyl. Cut these squares or circles and stick them over the original printed marks on the reflective sheeting
3. For easier positioning of this sticker on the reflective sheeting, use a sharp blade and cut away half of the cutting mark from your printed squares or circles
