

Version number 1.0

Revision: 15.06.2020

1 Identification of the substance or mixture and of the supplier

Product identifier

Printing date 15.06.2020

Trade name: TJ Pro Black

Article number: 999502 Relevant identified uses of the substance or mixture and uses advised against No further relevant information available.

Details of the supplier of the safety data sheet

AVERY DENNISON NEW ZEALAND 9 George Bourke Drive Mt Wellington Auckland, 1060 New Zealand **Manufacturer/Supplier:** Avery Dennison 250 Chester Street Painesville, OH 44077 USA

Further information obtainable from: reflective.product.compliance@averydennison.com **Emergency telephone number:** CHEMTREC International +1 (703) 527-3887 24 hr

CHEMTREC International +1 (703) 527-3887 24 n CHEMTREC New Zealand: (09) 801 0034

2 Hazards identification

Classification of the substance or mixture

Acute Tox. 4H302 Harmful if swallowed.Skin Corr. 3H316 Causes mild skin irritation.Skin Sens. 1H317 May cause an allergic skin reaction.Repr. 2H361 Suspected of damaging fertility or the unborn child (causing atrophy of the testes).Aquatic Acute 2H401 Toxic to aquatic life.Aquatic Chronic 3 H412 Harmful to aquatic life with long lasting effects.

Label elements

GHS label elements The product is classified and labelled according to the Globally Harmonised System (GHS). **Hazard pictograms**

Signal word Warning

Hazard-determining components of labelling: 2-Propenoic acid, 2-[2-(ethenyloxy)ethoxy]ethyl ester Photoinitiator Hazard statements Harmful if swallowed. Causes mild skin irritation. May cause an allergic skin reaction. Suspected of damaging fertility or the unborn child (causing atrophy of the testes).

in accordance with HSNO

Version number 1.0

Revision: 15.06.2020

(Contd. of page 1)

Trade name: TJ Pro Black

Toxic to aquatic life. Harmful to aquatic life with long lasting effects. **Precautionary statements** If medical advice is needed, have product container or label at hand. Keep out of reach of children. Read label before use. Avoid breathing dust/fume/gas/mist/vapours/spray. Wear protective gloves/protective clothing/eye protection/face protection. IF SWALLOWED: Call a POISON CENTER/doctor if you feel unwell. Rinse mouth. Store locked up. Dispose of contents/container in accordance with local/regional/national/international regulations.

3 Composition/Information on ingredients

Chemical characterisation: Mixtures

Description: Mixture of substances listed below with nonhazardous additions.

Dangerous components:	
86273-46-3 2-Propenoic acid, 2-[2-(ethenyloxy)ethoxy]ethyl ester	≥ 50 - ≤ 100%
Acute Tox. 4, H302; Skin Sens. 1, H317; Aquatic Acute 2, H401; Aquatic Chronic 3, H412	
75980-60-8 Photoinitiator	10 - 25%
Repr. 2, H361	
2399-48-6 Tetrahydrofurfuryl Acrylate	2.5 - 10%
Skin Irrit. 2, H315; Eye Irrit. 2A, H319	
1333-86-4 Carbon black	≥ 2.5 - ≤ 10%
Self-heat. 2, H252	
Additional information: For the wording of the listed hazard phrases refer to section 16.	

4 First aid measures

Description of first aid measures

After inhalation: Supply fresh air; consult doctor in case of complaints.

After skin contact: Generally the product does not irritate the skin.

After eye contact: Rinse opened eye for several minutes under running water. Then consult a doctor.

After swallowing: If symptoms persist consult doctor.

Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available.

5 Fire fighting measures

Extinguishing media

Suitable extinguishing agents: Use fire extinguishing methods suitable to surrounding conditions. Special hazards arising from the substance or mixture No further relevant information available. Advice for firefighters

Protective equipment: No special measures required.

6 Accidental release measures

Personal precautions, protective equipment and emergency procedures Not required.
Environmental precautions: Do not allow to enter sewers/ surface or ground water.
Methods and material for containment and cleaning up:
Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
Dispose contaminated material as waste according to item 13.
Ensure adequate ventilation.
Reference to other sections
See Section 7 for information on safe handling.
See Section 8 for information on personal protection equipment.
See Section 13 for disposal information.

7 Handling and storage

Handling:

Precautions for safe handling
Ensure good ventilation/exhaustion at the workplace.
Prevent formation of aerosols.
Information about fire - and explosion protection: No special measures required.

Conditions for safe storage, including any incompatibilities

Storage:

Requirements to be met by storerooms and receptacles: No special requirements.

Information about storage in one common storage facility: Not required.

Further information about storage conditions: None.

Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

Additional information about design of technical facilities: No further data; see item 7.

Control parameters

Ingredients with limit values that require monitoring at the workplace:

1333-86-4 Carbon black

WES (New Zealand) Long-term value: 3 mg/m³

Suspected carcinogen

Additional information: The lists valid during the making were used as basis.

Exposure controls

Personal protective equipment:

General protective and hygienic measures:

Keep away from foodstuffs, beverages and feed.

Wash hands before breaks and at the end of work.

Respiratory protection:

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use self-contained respiratory protective device.

Protection of hands:

(Contd. of page 3)

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation **Material of gloves**

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

Eye protection: Goggles recommended during refilling

9 Physical and chemical properties

Information on basic physical and chem General Information Appearance:	ical properties
Form:	Liquid
Colour:	Black
Odour:	Characteristic
Odour threshold:	Not determined.
pH-value:	Not determined.
Change in condition Melting point/freezing point: Initial boiling point and boiling rang	Undetermined.
Flash point:	Not applicable.
Flammability (solid, gas):	Not applicable.
Decomposition temperature:	Not determined.
Auto-ignition temperature:	Product is not selfigniting.
Explosive properties:	Product does not present an explosion hazard.
Explosion limits: Lower: Upper:	Not determined. Not determined.
Vapour pressure:	Not determined.
Density: Relative density Vapour density Evaporation rate	Not determined. Not determined. Not determined. Not determined.
Solubility in / Miscibility with water:	Not miscible or difficult to mix.
Partition coefficient: n-octanol/water:	Not determined.
Viscosity: Dynamic: Kinematic: VOC (EC)	Not determined. Not determined. < 0.00 %

10 Stability and reactivity

Reactivity No further relevant information available.

Chemical stability

Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications. **Possibility of hazardous reactions** No dangerous reactions known.

Conditions to avoid No further relevant information available.

Conditions to avoid No further relevant information available.

Incompatible materials: No further relevant information available.

Hazardous decomposition products: No dangerous decomposition products known.

1 Toxicological information

Information on toxicological effects Acute toxicity LD/LC50 values relevant for classification: 1333-86-4 Carbon black

Oral LD50 10,000 mg/kg (rat)

Primary irritant effect:

Skin corrosion/irritation No irritant effect.

Serious eye damage/irritation No irritating effect.

Respiratory or skin sensitisation No sensitising effects known.

Additional toxicological information:

The product shows the following dangers according to the calculation method of the General EU Classification Guidelines for Preparations as issued in the latest version:

CMR effects (carcinogenity, mutagenicity and toxicity for reproduction)

Repr. 2

12 Ecological information

Toxicity

Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Behaviour in environmental systems: Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available. Additional ecological information: General notes: Water hazard class 2 (German Regulation) (Self-assessment): hazardous for water Do not allow product to reach ground water, water course or sewage system. Danger to drinking water if even small quantities leak into the ground. Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable. Other educates of fort No further relevant information available.

Other adverse effects No further relevant information available.

13 Disposal considerations

Waste treatment methods

Recommendation

Must not be disposed together with household garbage. Do not allow product to reach sewage system.

Uncleaned packaging:

Recommendation: Disposal must be made according to official regulations.

14 Transport information

UN-Number		
ADR, IMDG, IATA	not regulated	
UN proper shipping name

Directive 2012/18/EU

Named dangerous substances - ANNEX I None of the ingredients is listed. Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

16 Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

Relevant phrases

H252 Self-heating in large quantities; may catch fire.

- H302 Harmful if swallowed.
- H315 Causes skin irritation.
- H317 May cause an allergic skin reaction.
- H319 Causes serious eye irritation.
- H361 Suspected of damaging fertility or the unborn child (causing atrophy of the testes).
- H401 Toxic to aquatic life.
- H412 Harmful to aquatic life with long lasting effects.
