TrafficJet™ Laminator

Easy Operation with the TrafficJet Laminator

Industry-leading lamination capability enabling production of high quality warranted and specification compliant traffic signs.

Our laminator is optimized for signs printed with the TrafficJet Print System using our retroreflective sheeting and high performance OL-1000 Anti-Graffiti, OL-1200 Anti-dew, or OL-2000 Clear protective overlay films. Uniform pressure is critical to eliminating trapped air which may impact reflective performance, color, and sign life. Worry-free installation and training will be provided with each order.

With the TrafficJet Laminator, you're assured the ability to achieve a high quality lamination and traffic signs that are warranted up to 15 years in the field. Now available for 100 yard roll capacity.

Features

Easy operation	LED light to illuminate work space
Unsupervised roll to roll laminating	Patented auto-calibration constantly monitors and eliminates skewing
Intuitive control panel	Easy access to all functions
One-piece quality steel chassis	Small footprint
Even pressure across entire web width	Variable height adjustment assures precise match to substrate thickness

Specifications

Maximum thickness document + board	50 mm (2")
Maximum working width	171 cm (67")
Maximum film width	165 cm (64")
Maximum length of the film reels usable	50 / 100 m (max diameter 23 cm/9")
Diameter of the rollers	maximum 114 mm (4.4")
Temperature of the upper rollers	20 to 60°C (68 to 140°F)
20°C (68°F) ambient temperature to 40°C (100°F)	7 minutes
Number of self blocking shaft delivered	5 + 1 unwinding shaft
Adjustable speed m/mn	from 0.3 to 6.3

Adjustable speed ft/mn	from 0.9 to 21
Power W	1800
Voltage	230 or 110V / 50-60 Hz
Amperage	8A/230V or 16A/110V
Dimensions of the machine	(cm) W 206 x D 82 x H 153 (inch) W 81" x D 32" x H 60"
Net weight of the machine	260 kg (573 lbs)
Shipping dimensions of the machine	(cm) W 213 x P 93 x H 170 (inch) L 84" x P 37" x H 66"
Machine weight for shipping	310 kg (683 lbs)
Warranty	1 year
